**THE MISSNER GROUP COMPLETES BUILD-OUT OF FIRST
FRANCHISE LOCATION FOR SKY HIGH SPORTS IN ILLINOIS**

(Skokie, Ill.) – The Missner Group is pleased to announce that the firm was selected to construct a 40,000 square foot build-out for the new franchise location for Sky High Sports in Niles, Illinois. This is the first location in Illinois for the trampoline entertainment group which currently operates multiple facilities on the West Coast.

Sky High Sports is a trampoline entertainment and exercise facility for both adults and children. The organization recently leased space within the Howard Street Industrial building located at 6424 Howard Street in Niles, Illinois. The property is owned by Principal Global Investors and was originally developed and constructed by The Missner Group. Sky High Sports selected the facility for its location as well as space design which features 50' by 50' column bays and 28' clear heights, perfect for accommodating large trampoline courts.

The Missner Group built-out the existing space to meet the requirements of Sky High Sports trampoline and entertainment activities. The facility features two large trampoline courts, a dodge ball court, a kids' court and two foam pits. The Missner Group also constructed a full-service snack bar and kitchen area, a large space for private parties and several lounge areas featuring flat screen televisions and arcade games. Glen Missner, principal and Jess Knigge, vice president of construction led the project on behalf of The Missner Group.

Sky High Sports is currently hiring for the Niles location and plans to open its doors within a few weeks. The franchise is also launching another Illinois location in Naperville later this year. Harris Architects provided the architectural services and Brian Kling and Christopher Volkert of Colliers International represented Sky High Sports in the new lease.

The Missner Group, headquartered in Skokie, Illinois, provides comprehensive and integrated real estate development and construction services throughout the Chicagoland and Midwestern markets. The firm, established in 1945, has completed more than \$800 million in construction projects, and has orchestrated the development of more than four million square feet of commercial and industrial real estate.
