**THE MISSNER GROUP COMPLETES BUILD-TO-SUIT FOR ILLINOIS BONE & JOINT
INSTITUTE IN DES PLAINES**

(Skokie, Illinois) – The Missner Group is pleased to announce that the firm has completed a three-story, 60,000 square foot medical office facility for the Illinois Bone & Joint Institute at 900 East Rand Road in Des Plaines, Illinois.

The Des Plaines facility is the newest location for the Illinois Bone & Joint Institute, a leader in orthopedic care in the Chicago metropolitan area with more than 20 locations. The Illinois Bone & Joint Institute occupies approximately 27,000 square feet of the building including offices, examination rooms, MRI facilities, X-ray facilities and related medical support. The remaining space is available for lease with immediate occupancy.

The Missner Group also recently completed the highly customized construction of the clinic's interior spaces. The first floor features a 7,889 square foot MRI suite with a state-of-the-art mechanical and electrical system, as well as treatment and physical therapy rooms and an occupational therapy and physical fitness area. The second floor features a 19,349 square foot clinic suite with 32 examination rooms, four high-tech x-ray rooms, and five conference rooms.

“This new facility highlights the Illinois Bone & Joint Institute's sustained commitment to providing its clients with the most cutting-edge and effective treatment programs available,” said Glen Missner, principal of The Missner Group and the executive for the project. “Its sophisticated design, accessible location, and high-tech features will make it a stand-out to visitors and other tenants.”

The physicians of the Illinois Bone & Joint Institute specialize in the diagnosis, treatment and management of injuries and diseases of the musculoskeletal system. Providers rigorously trained in orthopedic

surgery, rheumatology, podiatry, pain management, orthopedic oncology and other related areas are committed to restoring patients to the highest level of functioning possible.

Glen Missner, principal of the The Missner Group, was the executive for the project. Drue Stoehr and Jess Knigge were the project managers for the firm, while William Truty was the project engineer. Stephen Rankin Associates provided architectural services. Larry Debb and John Kosich of GVA Williams are the co-developers and are serving as the owners' representatives.

The Missner Group, headquartered in Skokie, Illinois, provides comprehensive and integrated real estate development and construction services throughout the Chicagoland and Midwestern markets. The firm, established in 1945, has completed more than \$800 million in construction projects, and has orchestrated the development of more than five million square feet of commercial and industrial real estate.
