**THE MISSNER GROUP COMPLETES HEADQUARTERS FOR
THE ILLINOIS FEDERATION OF TEACHERS**

(Westmont, Illinois) – The Missner Group is pleased to announce the completion of a 29,000 square foot headquarter facility for the Illinois Federation of Teachers located **at 500 Oakmont in Westmont, Illinois.**

The new masonry office building serves as the headquarters of four local branches of the Illinois Federation of Teachers (IFT). The IFT represents approximately 90,000 elementary and secondary teachers, school-related personnel and support staff, higher education faculty and staff, and public employees across the state of Illinois. Since its inception in 1936, the IFT has maintained one common goal - to improve public education and public services for Illinois students and citizens. The newly constructed building offers the IFT a contemporary design with a highly professional image in which to continue its education mission.

“The new IFT headquarters is a premier example of a close collaboration between the owner’s representative, architect, IFT representatives and The Missner Group,” said Glen Missner, principal of The Missner Group. “Together the team focused on designing, planning, and budgeting, to create a highly functional property that meets the IFT’s physical requirements in the most economical way possible.”

In addition to meeting the current and future space needs of the IFT’s staff, the property also features a large conference center with two divisible class/training rooms. The new IFT headquarters is fully sprinklered, meets ADA requirements, and is designed to accommodate for audio video presentations and classroom training. The Missner Group was the general contractor for the IFT headquarter property in Westmont. Stephen Rankin Associates provided the architectural services.

The Missner Group, headquartered in Skokie, Illinois, provides comprehensive and integrated real estate development and construction services throughout the Chicagoland and Midwestern markets. The firm, established in 1945, has completed more than \$750 million in construction projects, and has orchestrated the development of more than four million square feet of commercial and industrial real estate.
